

~~SECRET~~PUEBLO

A final cryptologic/cryptographic damage assessment was made by the PUEBLO Damage Assessment Team on 4 April 1969. A copy of the report was provided to each principal member of the USIB; distribution was otherwise limited to senior officials in the government with a need-to-know. The assessment, covering the period from 23 Jan 1968 when the ship was captured until 23 December 1968 when the crew was released, superseded all earlier evaluations.
